

CASH.BOT · THE SYSTEM

THE FREE- MONEY MACHINE

How to get companies to pay **YOU** —
and run it in **10 minutes a day.**

WHAT YOU'LL HAVE BY THE END

You'll own a money **loop**.

- ▶ A **paid link** with every company on the list.
- ▶ A **one-tap way** to claim free money every day.
- ▶ **AI making your videos** so people sign up under you.

Let's build it. Six steps.

THE WHOLE THING IN ONE LINE

Free apps pay you to **share** them.

You get a special link. Someone signs up with it → **you get paid.**

Cash. Gift cards. Coins you can cash out.

That's the business. Now we scale it.

THREE WAYS THE MONEY LANDS

Cash. Cards. Coins.

\$ CASH — banks, AI tools, hosting + passive apps pay real dollars

🏆 GIFT CARDS — scan receipts, play games

🎰 COINS — free-to-play casinos, redeemable for prizes

Some pay instantly, some build over time. **All of them start free.**

STEP 1 / 6

Sign up for **everything.**

You can't get paid on an app you never joined.
One sitting. One email. Knock them all out.

YOUR 5-MINUTE KIT

Set this up **once**.

- [1] **One clean email** for every signup
- [2] A free **password manager** (Bitwarden) — never reuse passwords
- [3] **Phone + ID ready** — apps verify before they pay you
- [4] Your **notepad open** on the side

Then work the list top to bottom — just get every door open.

STEP 2 / 6

Grab your link. Grab the **free stuff**.

Two moves in every app: find **YOUR** link, then claim the bonus.

WORKS ALMOST EVERYWHERE

The same 4 taps.

- 1 Open your **profile / menu**
- 2 Find "**Refer a Friend / Invite / Rewards / Affiliate**"
- 3 Copy the link — **that one's yours**
- 4 Claim the **daily bonus** while you're in there

THE HONEST PART

Read this before you promote a number.

Casinos are free to play — but you usually earn only after a friend **buys**. Some apps pay cash, some pay coins. Amounts change. Not every state qualifies.

Do your **ID check early** so payouts never get stuck.

Always say your links are referral links. **Honesty is the whole game.**

STEP 3 / 6

Put every link in **one notepad.**

A link you can't find is a link you don't have.

One plain file: email · your link · bonus claimed.

No passwords here — those live in your password manager.

STEP 4 / 6

Open them all from one server.

A cheap always-on computer (~\$5-6/mo). It never sleeps.

It stays logged into every app — **one tap opens every daily bonus.**

Honest: casinos check your location — claim those from your phone if blocked.

STEP 5 / 6

One daily alarm. One quick sweep.

Same time, every day. Label it "**CLAIM MY BONUSES.**"

Streaks pay more — miss a day and some reset to zero.

5-10 minutes. That's the whole daily job.

STEP 6 / 6

Let AI make your **videos**.

Pick an app with a free offer. Paste a prompt → the AI writes the video.

Film 30 seconds or screen-record. Post it. Link in bio.

Copy what already works. Opus cuts one video into a week of posts.

THE RHYTHM

The weekly loop.

MON find 5 winning video formats in your niche

TUE–THU remake + post 1–3 per day across TikTok / Reels / Shorts

FRI check which links paid — double down on what worked

 every new follower = more eyes on every link in your bio

THE WHOLE MACHINE

**Sign up. Claim.
Save. Post. Repeat.**

That's it. Run the loop once a day.

The money compounds.
