The whole game on one screen

You are about to build a portfolio of referral links across casinos, finance apps, rewards apps, and creator tools — then point a content engine at them. Every platform here pays YOU when someone signs up under your link. Your job is to own as many of those links as possible, keep them in one notepad, and put them where people will see them.

THE ONE LAW: time + chaos + pattern + acknowledgement = the glass break. The chaos is 20 scattered apps. The pattern is one loop run on all of them. The acknowledgement is the first referral notification. Run the loop; the glass breaks itself.

```
[ 1 SIGN UP ] --> [ 2 LINK+CLAIM ] --> [ 3 SAVE NOTEPAD ] --> [ 4 POST SHORTS ]  
'----- ( run the loop forever ) <---'
```

- **STEP 1** — Sign up for every account on the list. One sitting, one email, knock them all out.
- **STEP 2** — Inside each one, find `Refer a Friend` / `Invite` / `Affiliate`, copy YOUR link, and claim the signup + daily bonuses.
- **STEP 3** — Paste every link into your notepad (`my-accounts.txt`) so it's all in one place.
- **STEP 4** — Set up your social accounts, copy short-form formats that already go viral, and put your links in every bio.

HONEST RULES OF THE ROAD. The casinos here are **sweepstakes / social casinos** — free to play, "no purchase necessary," and not legal in every state (commonly excluded: WA, ID, MI, NV, and others — check each site). You must be of legal age (18+ or 21+). Referral and bonus terms change often and are never guaranteed — always read the current promo terms. Always **disclose** that your links are referral/affiliate links. Never spam. Honest and consistent beats a one-time blast every time.

▶ **STEP 1**

Sign up for **every** account

Set the foundation first. You can't earn a referral on an account you don't have. Block out 60–90 minutes and create every account in one run.

▶ **BEFORE YOU TOUCH THE LIST – SET UP YOUR KIT**

1. **Email:** use one clean email you control (a fresh Gmail is perfect). Every signup goes through it so confirmations land in one inbox.
2. **Password manager:** install one (Bitwarden is free). Generate a unique password per site. **Never** reuse passwords; never write them in the notepad.
3. **Phone + ID ready:** many of these verify by SMS, and casinos/finance apps require ID (KYC) before paying out. Have your phone and a photo of your ID handy.
4. **Notepad open:** open `templates/my-accounts.txt` side-by-side. You'll fill it as you go in Step 3.

Work top to bottom. For each platform: open the link, sign up with your email, confirm, and complete verification if it asks. Mark it done in your notepad. Don't stop to monetize yet — just get every door open first.

===== THE SIGN-UP LIST =====

- **Sweepstakes casinos:** Crown Coins · Rolla · RealPrize · SpinBlitz · McLuck · Blitz · Casino.click · Baba Casino · Spree · Wow Vegas · Ignition
- **Creator tools:** Opus Pro (OpusClip)
- **Rewards / passive:** Fetch · Mistplay (Android) · Honeygain
- **Finance:** SoFi (Loans · Invest · Money · Crypto · Credit Monitoring)
- **Infrastructure:** Vultr

TIP — sign up through the house links in the back of this guide. They get you in the door and credited correctly. Then in Step 2 you generate YOUR OWN link to share. One sweep purchase is never required to play or to earn referrals on the sweepstakes sites.

► STEP 2

Get **your own link** + claim the bonus

This is the step that turns an account into an asset. In every platform you'll do two things: (1) find and copy **YOUR** unique referral/affiliate link, and (2) claim whatever signup and daily bonuses are on offer. Below is exactly where to look, platform by platform.

► THE UNIVERSAL PATTERN (WORKS ON ~90% OF THESE)

1. Open your **profile / account menu** (top-right avatar or hamburger).
2. Look for **Refer a Friend**, **Invite Friends**, **Refer & Earn**, **Affiliate**, or **Rewards**.
3. Copy the **unique link or code** it shows you. That's yours.
4. While you're in there, hit **Daily bonus** / **Daily wheel** and any **follow us for free coins** social offers.

READ THIS BEFORE YOU PROMOTE A NUMBER. On the sweepstakes casinos, signing up and playing is free — but the **referral reward almost always requires your friend to make a qualifying purchase** (buy a coin pack) before you get paid your Sweeps Coins. A few (like Baba) pay on signup alone. Most pay in **two tiers**: a chunk when the friend first buys, more once their lifetime spend crosses a threshold. The amounts below are current as of mid-2026 and **change often** — confirm in your own account.

----- INFRASTRUCTURE -----

CLOUD HOSTING

Vultr

GET YOUR LINK:

1. Dashboard → **Affiliate** (left nav).
2. Copy your ?ref= link.

CLAIM: "give \$100, get ~\$25-\$35" — the new user gets up to **\$100 trial credit**; you earn account credit once they stay **active 30+ days** (and spend a qualifying amount). Paid out after the 1st and 15th. Pairs perfectly with a "how I host my AI bots" video.

KYC IS HOW YOU ACTUALLY GET PAID. Casinos and finance apps will hold redemptions/bonuses until your identity is verified. Do your ID verification early on each one so a referral payout never gets stuck. One identity, one set of real details — never fake info.

▶ STEP 3

Save it all to one notepad

A referral link you can't find is a referral link you don't have. Everything goes into one plain notepad file — the same way the OS keeps its files. No fancy app, no spreadsheet, just one text file you can open on any device and copy-paste from in two seconds.

WHY A NOTEPAD, NOT A SPREADSHEET: speed. When you're filming or commenting, you need to grab a link instantly. A flat text file opens anywhere, syncs everywhere, and never makes you hunt across columns. One file = your whole money map.

▶ BUILD YOUR NOTEPAD

1. Open `templates/my-accounts.txt` from this kit (copy of the format below).
2. For each platform, fill: email used · signed-up ✓ · verified ✓ · **MY referral link** · bonus claimed ✓.
3. **Never** store passwords here — those live in your password manager. This file is just links + status.
4. Save it where you'll always have it (phone notes, a synced text file, or your machine's Files). Keep it open while you work.

```
# my-accounts.txt — one block per platform
PLATFORM: McLuck
Email used:      you@email.com
Signed up:       [x]   Verified: [x]
MY REFERRAL LINK: https://www.mcluck.com/lp/raf?r=<YOUR-CODE>
Signup bonus:    [x] claimed
Daily bonus:     [x] login [x] social free coins
Notes:           redeems via ...
```

Do this for all ~20 platforms. When the notepad is full, you're holding a complete map of every link that pays you. That map is the asset. Step 4 is where you point traffic at it.

ONE MORE FILE: you'll also keep `templates/my-socials.txt` — the same idea for your social accounts (handle, niche, link-in-bio, the accounts you model). Set it up now; you'll fill it in Step 4.

► STEP 4

Monetize with short-form content

Links don't earn until people see them. The engine is short-form video — TikTok, Reels, YouTube Shorts — and the cheat code is simple: **don't invent, copy what already works**. Find the formats that are already going viral in this niche, remake them with your spin and your link, and post every day.

THE ONE LAW HERE: the first 3 seconds decide everything. You're not being original — you're being **consistent with a proven format**. Model the structure, swap in your hook, your offer, your link. Volume + iteration wins.

► SET UP YOUR SOCIAL ACCOUNTS (THEN LOG THEM IN MY-SOCIALS.TXT)

1. **Pick a niche per account:** "free money apps," "side hustles," "passive income," "casino wins." One angle, stick to it — the algorithm rewards focus.
2. **Make the accounts:** TikTok, Instagram (Reels), YouTube (Shorts). Same handle everywhere. Clean bio that says what you post + a link.
3. **Link hub in bio:** set up a free Linktree/Beacons, drop ALL your referral links in it, and put that one URL in every bio + pinned comment.
4. **Log it:** fill `templates/my-socials.txt` — handle, niche, link-in-bio, and the 3 accounts you'll model.

► THE COPY-WHAT-WORKS METHOD

1. **Find the winners.** Search your niche on TikTok/Reels. Look for videos with **way more views than the creator's normal** — that's a format that's working, not just a big account.
2. **Screenshot the structure.** Note the hook (first line/visual), the pacing, the on-screen text, the call-to-action. That skeleton is what you're copying — never the actual clip.
3. **Remake it with your spin.** Same structure, your face/voice/screen-recording, your offer ("I use this app to earn X — link in bio"). Show the app, the bonus, the payout.
4. **CTA every time.** "Link in my bio" + pin a comment with the link. Make the next step obvious.
5. **Post daily, study the data.** Keep the formats that pop, kill the ones that don't. 1 in 10 hitting is a win — that one funds everything.

► LET THE MACHINE DO THE HEAVY LIFTING

You already own **Opus Pro / OpusClip** (Step 2). Use it to slice long videos into dozens of shorts, auto-caption, and reframe vertical — then post across all platforms. The CASH.BOT CONTENT modules (VIRALSHORTS, CAPTIONS, VIDEOHOOKS, THUMBNAILIDEA) generate hooks, scripts, and captions in bulk so you're never staring at a blank screen. One list in → a month of posts out.

► THE WEEKLY LOOP

- **Mon:** find 5 winning formats in your niche, save them.
- **Tue-Thu:** remake + post 1–3 per day across TikTok / Reels / Shorts.
- **Fri:** check which links got signups (your notepad + dashboards), double down on what paid.
- **Repeat.** Every new follower is another set of eyes on every link in your bio.

STAY HONEST + COMPLIANT. Disclose affiliate/referral links (it's required and it builds trust). Don't promise guaranteed money — show what's real. Follow each platform's rules on gambling/financial content (some restrict casino promos or require age-gating). Honest creators last; spammers get banned and lose every link at once.

► REFERENCE

The house link vault

Sign up through these once (gets you in the door, credited correctly). Then generate YOUR OWN links in Step 2 and keep them in your notepad. Full copy lives in `cashbot-affiliate-links.txt`.

FINAL HONEST NOTE. Sweepstakes casinos are free-to-play, "no purchase necessary," 18/21+, and void in restricted states. Ignition is real-money gambling — region-restricted, gamble responsibly. Finance products (SoFi) involve real money and eligibility checks. All referral and bonus amounts are set by the platforms and **change without notice** — always confirm the current terms in your own account before you promote a number. Disclose every affiliate link. This guide teaches a system; it does not promise income.
